## Profilo

Engineering is my job, music is my focus and volunteering drives my personal growth. Innate curiosity towards the world fuels my motivation as an engineering student and thanks to extensive music and volunteering experience I learnt public performances handling, constructive collaboration in groups and teaching abilities. I personally built [www.magiwanders.com](http://www.magiwanders.com) from scratch, it contains a more complete and detailed overview about who I am, what are my current projects and my objectives.
